Ingmar Bergman

Nunca, desde de Morangos Silvestres, Bergman lidou com o Filhos de Domingo pade de uma forma simultaneamente tão clara e tão misteriosa. Tudo acontece durante um fim-de-semana, num ultimate de Julho, numa casa onde vive o pequeno Pu (Bergman), a personagem principal, os seus irmãos e outros familiares. Pu, com apenas oito anos, apercebe-se das violentas discussões entre o pai e a mãe e chega à conclusão de que estes não querem continuar a viver juntos. A partir daí, todo o universo de Pu, que necessita de harmonia e estabilidade, se vai desmoronando. O que Bergman acaba por relatar neste romance, afinal, é a relação conflituosa, violenta e simultaneamente terna com o seu próprio pai, que teme, mas admira e de quem, afinal, gostaria de receber afecto. Durante a narrativa, Bergman avança e recua no tempo, numa sequência de extraordinários "flashbacks para o futuro", relatando a conflituosa relação com o pai, até fechar completamente o círculo com a reconciliação.

Ingmar Bergman is, together with his father, one in every of Sunday's children. In America, it truly is stated that the kid born on Sunday is happier than different children. now not so in Sweden--they are acknowledged to be sensitive, keeping exact presents that come with the power to determine the dead. Bergman, a real genius, writes a story of a summer time spent in a run down previous house, yet as a novel. he's often called Pu as a child, Ingmar as an adult; i'll use the separate names to differentiate in my review. Pu is a small child, 8 years old, profoundly fearful of his mom and dad separating. He witnesses conversations that be sure his fears, freezing him. His brother Dag is quite merciless to him, and he prefers Filhos de Domingo to carry his sister or play dolls with her. he's a sweet, delicate baby who does not wish his global to fall apart. He desires to use his presents Filhos de Domingo as Sunday's baby to visit a place the place a watchmaker devoted suicide and ask him whilst he'll die. This truly occurs in a dream; the answer's "Always." demise is a typical subject within the book. Maj, a type of nanny/maid that Pu is particularly fond of, kills herself in a river many years after the booklet takes place; Pu additionally sees Filhos de Domingo one other lifeless physique waft up. Pu frequently needs everyone is dead, but if he thinks they're he's panic stricken. It is going deeper than easy events, though. Ingmar's father is loss of life in a "flashback to the future." As a priest, he may still placed his religion in God, yet he turns out to have misplaced his faith; he's afraid, and Ingmar is usually a section afraid. religion additionally performs a massive role. Pu is going on a visit along with his father, who's to offer a sermon at the Day of Transfiguration. Pu states angrily that any one who believes in God is stupid, simply because he feels God has been merciless to him. probably he relatively thinks this, however it is much more likely a small, infantile outrage he does not mean. And, might be such a lot importantly, as outdated Mr. Bergman is dying, he's taking his son's hand and attempts to bless him, the dwelling and well. Sunday's youngsters is Filhos de Domingo absolutely approximately Pu/Ingmar and his courting along with his father. Pu loves his father, and it's transparent his father Filhos de Domingo not less than likes him greater than his different son. he's fond and smiling, yet all at once he'll violently hit his children, terrifying them in his rage. It makes Pu are looking to cry. Ingmar attempts to inform his father this while he asks what he had performed wrong, yet his father insists he used to be rather mild-tempered. possibly for this reason Ingmar feels little or no

whilst the fellow dies, regardless of a few actually soft moments jointly as Sunday's Children. For this type of little book, Sunday's young children fairly packs a punch. it is a bit sluggish within the beginning, however it unites the temper properly. The writing type is really easy to imagine so that you can photograph the ebook as an Ingmar Bergman film. i'd hugely suggest this publication to an individual who enjoys deeply touching literature, or books approximately religion or family.
