## Mayhem in High Heels (High Heels #5)

Gemma Halliday

Maddie Springer is ultimately strolling down the aisle with the guy of her dreams. And she's obtained the correct marriage ceremony planner to drag all of it off in style. Well, perfect, that is, until Mayhem in High Heels (High Heels #5) eventually the lady lands up lifeless - murdered in buttercream icing. unexpectedly Maddie's wish of a dream marriage ceremony melts quicker than an ice sculpture at an out of doors buffet. And while her groom-to-be is assigned the detective answerable for the case, there is going any likelihood of a honeymoon. Unless, of course, Maddie can locate the assassin prior to her significant day. With the aid of her fellow fashionista friends, Maddie vows to unveil the cold-blooded killer. Is it the strong ex-husband, the recent younger boy toy, a mystery lover from the past, or a billionaire bridezilla at the warpath? because the marriage ceremony day grows closer, tempers flare, outdated flames return, and Maddie's race to the altar becomes a race opposed to time.

What a distinction a yr makes. I learn and reviewed the fourth e-book during this series, Alibi in excessive Heels, in February 2008. I gave that e-book a B grade and acknowledged Maddie, the heroine, used to be a breath of clean air. A 12 months later Maddie annoyed me greater than anything in interpreting Mayhem in High Heels (High Heels #5) this present book. Maybe it's the storyline that's the difference. In examining my previous review, issues approximately that publication got here again to me. Maddie used to be the suspect within the crime learn about, so she couldn't depend upon the French police to transparent her, she needed to do this herself. So she was once Mayhem in High Heels (High Heels #5) lovely inspired to not supply in and saved digging to discover the true culprit. After she's cleared of any wrongdoing, her boyfriend, Jack Ramirez, proposes and that's the place Mayhem alternatives Mayhem in High Heels (High Heels #5) up, Maddie preparing for his or her marriage ceremony in exactly a couple of days' time. But that Maddie is now letting humans stroll everywhere her, determining for her every little thing approximately her wedding. It's her marriage ceremony planner who finally ends up being the sufferer this time round in order that Maddie can then examine her final homicide secret rather than making plans her wedding. whilst she does have these infrequent moments of really doing whatever for the massive day, like tasting the marriage cake, and her fiance doesn't convey a lot interest, she without warning starts off to have doubts approximately Mayhem in High Heels (High Heels #5) spending the remainder of her lifestyles with him. I'd Mayhem in High Heels (High Heels #5) say a significant portion of grooms to be convey little or no curiosity in making plans their wedding, so greenback up, Maddie. you have to be exhibiting Jack why he should still stick round for you. Instead, she simply heads again into her investigating along with her friends, even if Jack asks her remain out of it. And in her research we once more have Felix, aka Tabloid Boy, at the scene. so far as I'm concerned, Maddie doesn't deserve Jack for a way she's constantly wondering her emotions for Felix. within the past e-book whilst Ramirez flew all of the method to France simply because Maddie used to be in trouble, he walked in on these in a liplock. He evidently forgave her. yet you'd imagine she'd avoid Felix now that she's domestic and engaged. I imagine it's simply me and Chick Lit. We don't get alongside all that well. i would like extra of a hero interested by my story, and whilst he's a great, stand-up man like Ramirez, i need them handled accordingly. I do, though, like

Ms. Halliday's writing and her humor. I did chuckle out loud a number of times, although different instances I felt she did a couple of issues a definite means only for the laughs. except that, I simply felt enable down by way of this story. The finish of this e-book didn't really paintings for me either. It's the final one within the series, or so the again hide of this ARC i've got tells me, and that i anticipated whatever with a piece extra closure. Granted, Maddie ultimately will get her marriage ceremony her way, so perhaps her readers must have gotten to head alongside at the honeymoon to benefit from the love Maddie eventually makes a decision she desires greater than adventure.
