The Culture of Translation in Anglo-Saxon England

Robert Stanton

Translation was once primary The Culture of Translation in Anglo-Saxon England to previous English literature as we all know it. Most aged English literature, in fact, was once both translated or tailored from Latin sources, and this is often the 1st full-length research of Anglo-Saxon translation as a cultural practice. This 'culture of translation' was once characterized via altering attitudes in the direction of English: at the beginning an important evil, it may be obvious constructing expanding authority and sophistication. Translation's pedagogical functionality (already seen in Latin and outdated English glosses) flourished within the centralizing translation programme of the ninth-century translator-king Alfred, and English translations of the Bible extra proven the respectability of English, whereas AElfric's past due tenth-century translation concept reworked rules of Latin composition right into a new and energetic language for English preaching and instructing texts. The booklet will combine the Anglo-Saxon interval extra absolutely into the longer historical past of English translation. ROBERT STANTON is The Culture of Translation in Anglo-Saxon England Assistant Professor of English, Boston College, Massachusetts.
