With eight color plates, black and white photographs, and various line drawings.

My Observers publication of Ships used to be acquired within the mid-sixties. continually had a fascination for ships and the sea. At 3 years outdated i'd take a seat on my outdated man's knee and he could draw silhouettes of ships. He was once a Petty Officer within the Royal Navy. that is why I turned a ship's Officer within the service provider Navy. It seeps into the blood, like rum.
